This is a book about us--companions, fellow adventurers, best friends, and soul mates.

Our story starts when this handsome devil meets...

**Are you beginning to
get the picture?**

In case you're a little slow
let me clue you in. We
make a pretty good team.

That's right, it is just like
two peas in a pod.

(Don't worry, she's the silly one.)

Dear Reader:

Wow, you made it this far? You should be proud of yourself!
(If you're a guy then you should be extra proud because usually only women make it this far.)

It is at this point I feel compelled to warn you that this is where our story takes a little **twist**. As with most stories, they only get better when there is something that keeps you on your toes, and our story is no different.

~Your Narrator

Your Attention Please!

What you are about to witness is **scary**, suspenseful, dramatic, *life altering*, and can be deemed not safe for small children, people with heart conditions, or women that are pregnant.

What is this **twist** you ask? How could a photo book be all these things? Well, there is only one way to find out, but remember that **you have been warned**.

If you are sure that you are brave enough then please **carefully** turn the page.

JM: "Each step along our journey has only left me with one question..."

Will You Marry Me?

(Bet you didn't see that coming.)

... happily ever after.
